adding the directory module to a page.

Module options

- **Name:** You can change the module's name (not visible on the front end).
- **Title:** Customize the title of the Directory module, which is visible to the front-end user.

Show saved contacts

- **Checkbox Default On:** This option is enabled by default. It displays saved contacts, showcasing five users simultaneously with pagination at the bottom.
 - **Tooltip:** *"This feature toggles the visibility of the saved contacts section at the top of the directory."*

Show recommended users

- **Checkbox Default On:** This option is enabled by default. It showcases a rotator of recommended contacts recommended by [insert recommended info here].
 - **Tooltip:** *"Toggles the visibility of the recommended users section within the directory."*

The main list of all users

- **Filter by Interest:** Use this dropdown to filter the main list of all users by **Interest tags**.
- **Filter by Skills:** Use this dropdown to filter the main list of all users by **Skill tags**.
 - **Inclusive Filters:** All filters are inclusive, meaning users do not have to meet all selected criteria simultaneously to be included.

✓ Example

Selecting **Technology** as an **interest** and **Teaching** as a **skill** will display all users with either the interest in technology or the skill in teaching, or both.

- **Number of Users to Display:** From the dropdown menu, select the number of users to display per page: 5, 10, 25, or 50. The default is set to 10.
 - **Tooltip:** *“Number of users to display in the full list.”*
