

Navigation

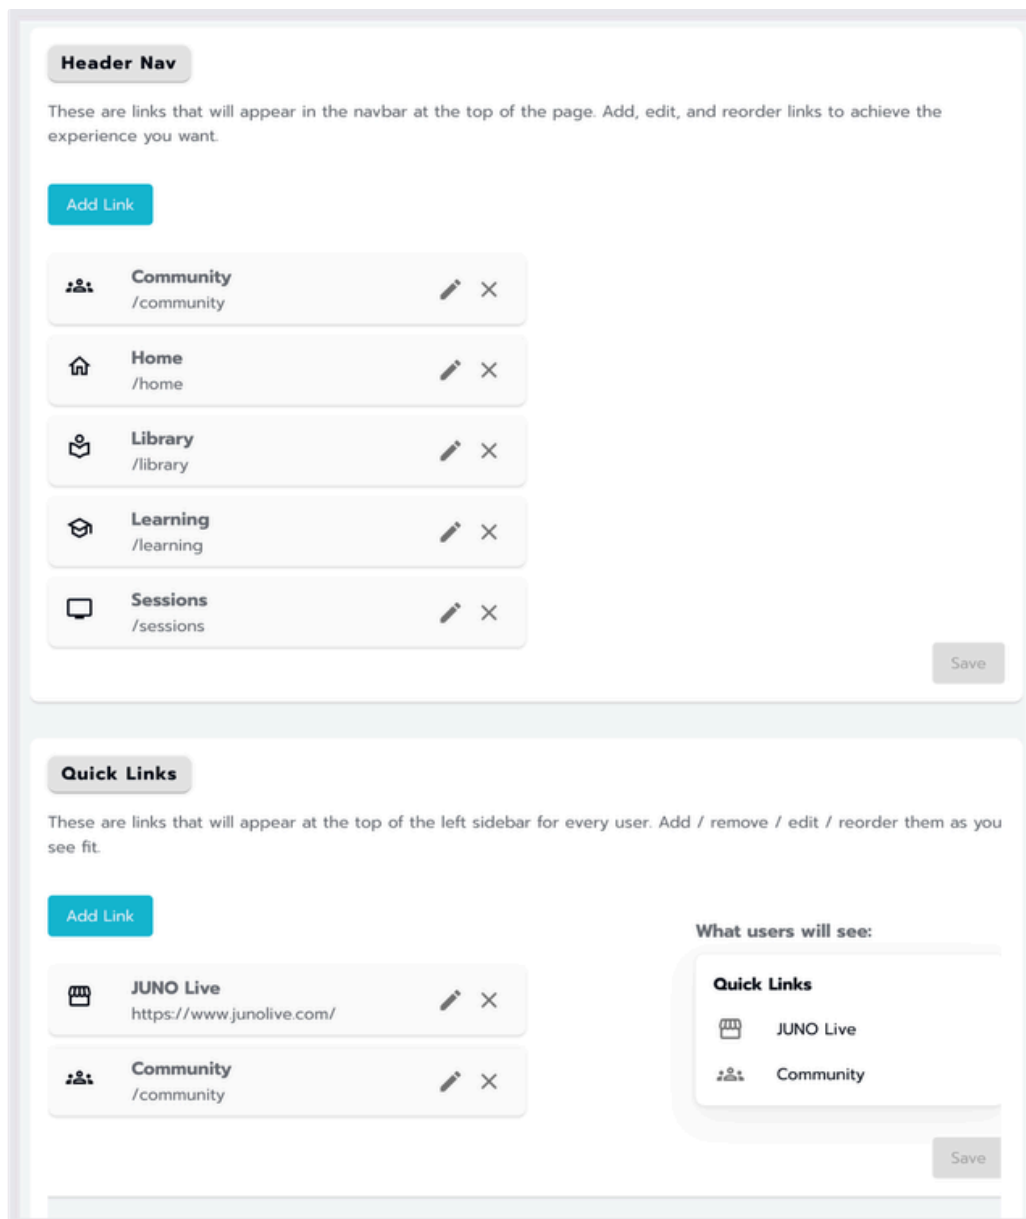

This guide will walk you through customizing the navigation items in your site's header and side navigation sections.

[Overview of the navigation page](#) | [Customizing the header navigation](#) | [Customizing the quick links navigation](#) | [Creating new navigation items](#) | [Additional tips](#)

Overview of the navigation page

The navigation page has two sections: the **Header Nav** and **Quick Links**.

- **Header Nav:** Links edited or created here will reflect on your site's **Header Navigation**. The **Save** button displays real-time updates.
- **Quick Links:** Links edited or created here are reflected on your site's **Side Navigation** menu. Real-time updates can be viewed under **What Users Will See**.

The Navigation section in the Site Admin.

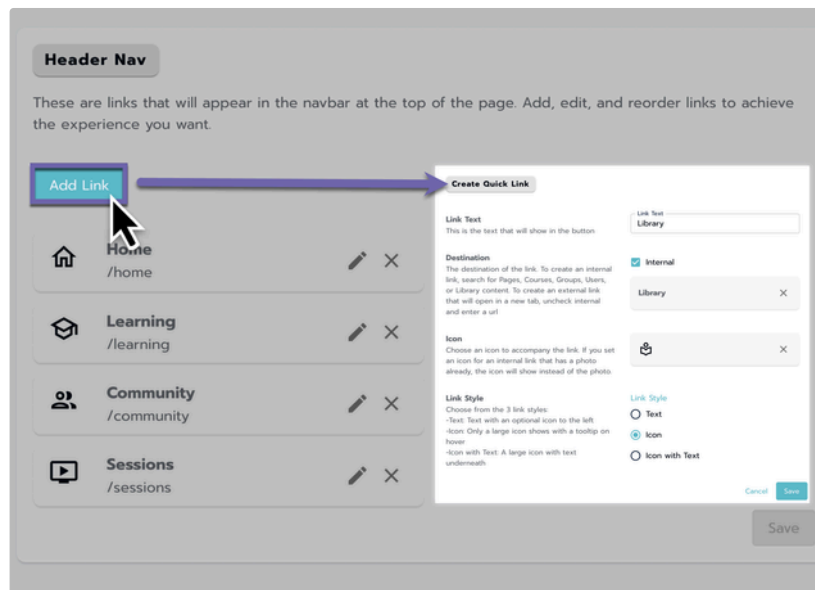

Customizing the header navigation

1. Locate the **Header Nav** section on the navigation page.
2. Here, you'll find default navigation links. Here, you can use the **Add Link** button to create new links, edit existing navigation links through the **pencil** icons, adjust their order by **dragging and dropping**, or delete navigation links using the **X** icons.

Customizing the quick links navigation

1. Locate the **Quick Links** section on the navigation page.
2. Like the Header Nav section, you can create new links using the **Add Link** button, edit existing navigation links through the **pencil** icons, adjust their order by **dragging and dropping**, or delete navigation links using the **X** icons.

Creating new navigation items

Creating a new Navigation Link.

1. Select the **Add Link** button in the section you want to create a new link within.
 - **Header Nav**
 - **Quick Links**
2. Fill out the required fields in the **Create Quick Link** window, including **Link Text**, **Destination**, **Icon**, and **Link Style**.
 - **Link Text**: This text will show on the button or as a tooltip and is **required**.
 - **Destination** with a Checkbox to designate internal (**default on**): The link's destination. Search for Pages, Courses, Groups, or Library content to create an internal link.
 - To create an **External link** that will open in a new tab, uncheck the internal box and add a valid URL.
 - **Icon**: Choose an icon to accompany the link.

Showing the list of icons available.

- **Link Style:** Choose from the 3 link styles:
 - **Text:** Text with an optional icon to the left.
 - **Icon:** Only a large icon shows with a tooltip when hovering.
 - **Icon with Text:** A large icon with text underneath

3. Select **Create** to finish setting up the new header nav item.

 After making changes, select the **Save** button to update the respective navigation section.

Additional tips

- Regularly review and update your navigation to ensure alignment with your site's content and objectives.
- Test the navigation on different devices for optimal user experience.
- Contact your JUNO team representative for assistance with any navigation issues or questions.
